Register and Activate your three-year manufacture warranty and receive expedited customer support!

USING THE EVP700B

DOWNLOAD THE TOG EV700 APP from your Google Play Store and APP store.

1. Watch to ensure that the front status light glows solid blue. (indicates standby mode)

2. When the EV700 is plugged into your EV the LED indicator will glow solid green.

3. Once the charger is activated the LED lights will **blink green** to indicate that a charge has been initiated.

4. In the event of a fault the LED light indicator will glow solid red.
