

Network Services

TURNONGREEN™

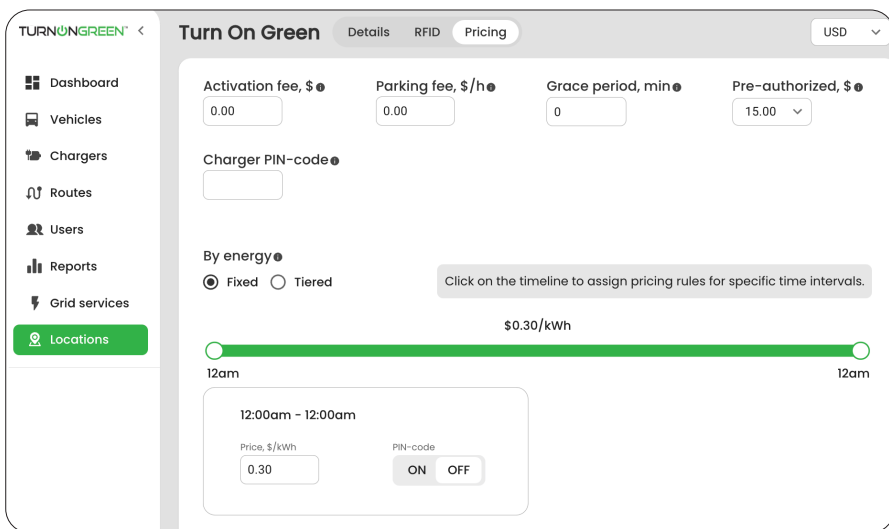

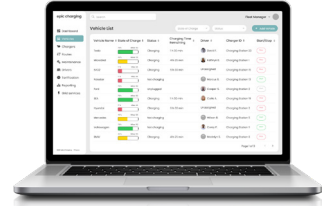

BWH | Hotels
Endorsed Supplier

BWH | Hotels
Endorsed Supplier - Canada

Tools for your hotel to manage EV charging services

Your hotel can subscribe to TurnOnGreen Network Services provided by Epic Charging. The web-based platform provides your hotel with user-friendly tools to set charging session pricing, monitor usage, set permissions, and comply with local requirements for charger reporting at an affordable price.

When network services are purchased with TurnOnGreen, your electric vehicle chargers come pre-configured for network connectivity through ethernet, wi-fi, or 4G depending on your site's needs.

Training and support

As your hotel approaches final installation, a TurnOnGreen project manager will schedule a training session with a member of your staff.

Your team will collaborate with TurnOnGreen to maximize EV charger up-time and ensure a positive experience with guests and users.

Dashboard

Visualize EV charging data in a custom administrative dashboard
